PPI Radio Award

competitiveprices

We endeavor to work to a particular budget by employing many different methods of making and knowing what to offer our client.

Our in house Framing Service means that we are able to offer very competitive prices should you require Framed Certificates or Framed Ceramic Pieces.

For example: a ceramic version of your logo in a frame makes a perfect corporate gift.

We have developed a unique way of representing your logo in clay using hand carved moulds.

How

the ordering process works

We receive a design brief from the customer, and then produce several designs based on that brief.

The client then chooses one of the designs.

We then produce a prototype of that design and email an image through with colour swatches.

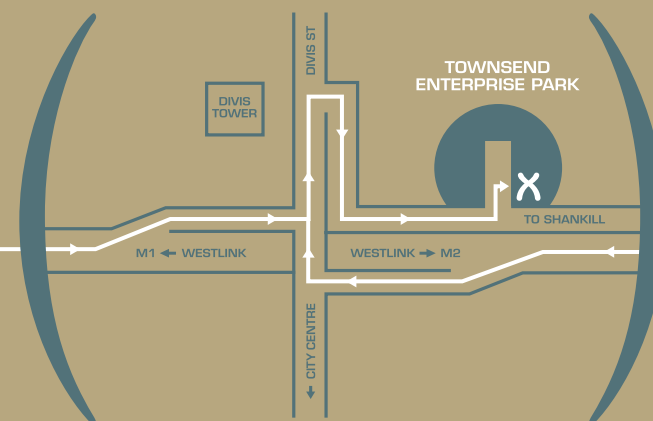

On approval we then produce a set of awards (from one up to thirty or so).

Have the plaques engraved and attached.

Deliver them boxed in fully satin lined mdf boxes, stamped with our logo, and the customer logo (if requested).

Costs will vary, although we endeavor to work to a particular budget.
